OUR MISSION

LIVING FOR AND FROM WINTER SPORTS!

As a global sports company, our aspiration is to build sustainable, economically successful and fascinating product and brand worlds. To do this, we always draw on our long tradition and years of experience, and the drive and motivation of Marker employees worldwide. Our teams enthusiastically innovate every day to meet the needs of today's and tomorrow's customers, and to develop the best possible products for this wonderful sport we all live and love.

We're firmly convinced that only sustainable business is right. It is our mission as a company to protect the world we live in and the people who work for us, and to contribute towards a more balanced relationship between humanity and the environment.

MARKER PLANET PROMISE

We love our sport and we love the landscapes that allow us to ski. It is our corporate duty to protect the environment and act sustainably in it. We constantly strive to minimise the negative impact of our business on the environment. We have to.

A brief overview of our current activities & projects:

REDUCING ENERGY UTILIZING INTELLIGENT CONTROL SYSTEMS

By constantly optimising production, we have reduced the energy consumed per binding
 Figures 2019:
Power: 0.699 kW/pair
Natural gas: 0.089 m³/pair
Water: 1.602 l/pair

REDESIGNING PACKAGING AND REDUCING PROTOTYPES

In 2020, we reduced our paper waste by 10 tons just by introducing new packaging projects.

100% EUROPEAN RESOURCES

Transport within our supply chains results mainly from the distances between our German, Italian and regional suppliers, who make up the majority of our partners. Average transport distance per supplier 2019: 558 km

RECYCLING OF MATERIALS

(Cardboard boxes, packaging foils, adhesive tape, other plastic non-standard wooden pallets)

LENSES

2022/23

- PHOTOCHROMATIC SPECTRUM**
- + Automatically adapts to surrounding sun light intensity
- + Available in standard and HD polarized versions

These lenses darken when exposed to light of sufficiently high UV intensity, generally only emitted by the sun, and become clear again in its absence.

- POLARIZED**
- + Reduced glare from snow
- + Greater contrast when sunny

- CUSTOM SPECTRUM**
- + Filters light Specific for Action Snow-sports
- + More contrast between white, blue, and grey tones
