

K2 SKATES
SPRING / SUMMER 2024

K2 Skates builds products to meet the year-round needs of the inline skating enthusiasts worldwide. In 1993 K2 revolutionized the skate industry by introducing the first-ever Softboot inline skates. This patented K2 technology pushed the envelope for inline skate innovation and forever changed the performance of the sport.

HARDBOOT SKATES

For over 30 years, K2 Skates has been at the forefront of the inline skating world, known for our innovative, softboot designs that prioritize comfort, breathability, style, range of motion, and performance. Now, we're excited to introduce a new range of skates that take those same values to a new generation. K2 introduces the SURGE and GRID hardboot skates!

Our Hardboot skates are specifically designed to provide unmatched comfort, support, control, performance, and durability. With six different variations to choose from, there's a perfect pair for all skill levels and skating styles. These skates offer a range of configurations to meet your exact needs and preferences.

At K2 Skates, we're committed to providing skaters of all ages and skill levels with the highest-quality, most comfortable, and best-performing inline skates on the market. With our new line of SURGE and GRID models we're taking that commitment to the next level.
