ACCESSORIES

The perennial traveller's problem: what's the best way to organise and secure your essential items on a well-planned trip? Our range of accessories combine smart design with RFID protection to secure and organise your cash, cards and documents. You can rest assured that your sensitive data is protected.

Recycled RFID Wallets

A range of wallets designed with travel in mind - for securing and organising your documentation to help you enjoy your trip.

All of our wallets are made from **recycled nylon**, a fabric with environmental advantages but no loss in the durability or style.

Our wallets utilise an RFID blocking material which acts as a barrier against RFID signals, dramatically reducing the risk of identity theft from bank/credit cards.
