

# TOURING

season 22-23

## New Generation of Pin Toe

**Rubber stop pad:**  
Boot tip is aligned/stopped  
when stepping-in

**Wider step-in platform:**  
Enlarged contact area for  
boot sole when stepping in

**Easier step-in:**  
Toe piece “snaps/clicks into the  
boot” with a lot less force required

**Overall much  
improved step-in  
comfort**

**Used in all  
Kingpin &  
Alpinist models**

**No  
performance  
losses**

**Same  
weight like  
previous toe**

# ISI Toe = “Intuitive Step In” Toe

Tec Icon:

→ The new name will replace the “Carbon reinforced pin toe” that was used as the technology name before.

# ALPINIST
